Parent Speech Therapy Evaluation Preparation Checklist

Published by Jet 2 Speech

Use this sheet privately to prepare for a visit. Bring notes or send records only through a secure channel your provider approves.

Think about everyday examples

- ☐ One thing my child does well and one thing they find hard.
- ☐ When I first noticed the concern, what has changed and where it happens.
- ☐ What helps: familiar people, extra time, gestures, signs or a device.
- ☐ Languages used at home and school and who uses each with my child.

Bring or discuss what you already have

- ☐ Recent hearing results or ear and hearing concerns.
- ☐ Prior evaluations, school reports or work samples, if relevant.
- ☐ Any accommodations or interpreting support my child may need.

Questions for the visit

What are we trying to understand? How will results and next steps be shared?
